Features & Benefits

Glazing Options:

6mm Toughened Glass is toughened during manufacturing and achieves Class 1 BS EN 12600 for impact performance.

UV Activated Self Cleaning Glass - These glass roof sheets have a UV activated special coating that is applied during manufacture that breaks down organic dirt which is then washed away by the rain. A minimum pitch of 10° is required for Self-Cleaning Glass.

Solar Panel glass has many benefits and is especially useful for outdoor living in a warmer and sunnier climate. It offers your customers additional protection from the elements as it can withstand high temperatures and direct sunlight. Not only will tinted glass cool the space underneath but it will also provide a range of health benefits to its users, including protection against ultraviolet rays.

Glazing Options	Clear	Grey Tint	Bronze Tint	Green Tint	Blue Tint
Light Transmission	88% LF	44% LF	50% LF	73% LF	57% LF
Heat Transmission	82% SF	58% SF	60% SF	57% SF	57% SF

Victorian Upgrade:

The Simplicity 6 is available with the Victorian Upgrade. This enhances your structure with a decorative design, perfect for traditional buildings.

Integral Aluminium Guttering:

Creates a sleek, modern design which is stronger than external guttering systems and saves time on installation.

Low Maintenance:

No need for repainting throughout the life of the veranda, a simple clean and removal of debris from the integral gutter is all that's required.

Full 10 Year Guarantee:

The Simplicity 6 is supplied with a full 10 year guarantee and a 60 year life expectancy for the canopy frame.

Material List & Component Information

1. The veranda wall plate is an extruded aluminium profile which fixes to the wall or steel bracket.
2. This veranda is available with 6mm Clear Toughened Glass, with tinted or coloured options available as upgrades.
3. This veranda uses our gasketed 6mm glass roof system, which is constructed from T6 grade structural aluminium frame.
4. The frame of the veranda is made from aluminium profiles with post options of 70x70mm, 70x75mm or 70x100mm. The frame is powder coated.

Please note: This is a standardised product data sheet and is subject to change depending on individual cases, or site specific surveys. Specific drawings are available upon request or on receipt of an order.
